

LOUVRE SHADE

PRODUCT CARE AND USE

Please follow these product care instructions. Our aim is to provide you with years of hassle-free weather protection with very little maintenance. Failure to follow these will void your warranty.

GENERAL GUIDELINES

- All louvre products installed by Making Shade carry a ten year workmanship warranty from date of invoice excluding Natural Disasters.
- All aluminium louvres and extrusions used in Louvre Shade are manufactured in an ISO9002 quality assured environment to AS1866 and AS3902 standards.
- Marine grade T316 stainless steel is used for drive axles, with stainless steel componentry fixings being standard.
- Plastic injected moulded componentry is UV stabilised.
- Powder coat finishes are Dulux Duralloy which provides excellent resistance to weather and salt spray.
- Cleaning - every 6-12 months depending on your environment is essential to remove dirt, grime and accumulated salt deposits from both powder coated and anodised surfaces. The steps for cleaning are:
 - Carefully remove any loose deposits with a wet sponge.
 - Use a soft non-abrasive brush and mild household detergent solution to
 - remove dust, salt and other deposits.
 - Rinse off with clean fresh water.
 - Regularly check (each 3-4 months) the water drainage gutter for any build-up of debris which will cause overflow or blockages.

Your Louvre Shade has been designed to conform to New Zealand standards of wind loadings. Full engineering details available on request.

SERVICE

Don't forget we offer a Product Service. This service checks the operation of your product, checks the condition of the fabric and stitching and changes remote control batteries if necessary. If you feel your Making Shade product could benefit from a health check please get in touch with the Making Shade Team.
