

SHADE SAILS

/ RESIDENTIAL AND COMMERCIAL

Shade sails are an economical and effective way to cool a large area; over a deck, spa pool or just provide protection over windows and doors.

MAKING
SHADE

MAXIMUM SUN PROTECTION, STRENGTH AND DURABILITY

MAXIMUM SHADE & PROTECTION

Shade Sails are an aesthetically pleasing, versatile & removable shade option that can be easily integrated into any space. We use knitted shade fabric specifically designed for Shade Sails. It offers high levels of UPF & UVR shade to protect you from NZ's harmful UV rays and meets the requirements for educational facilities, kindergartens & preschools. Available in a range of colours to blend in or stand out, it is breathable, strong and guarded against rot.

No fabric is cut until our poles are installed and the sail measurements checked to ensure 100% accuracy in fit and tolerance.

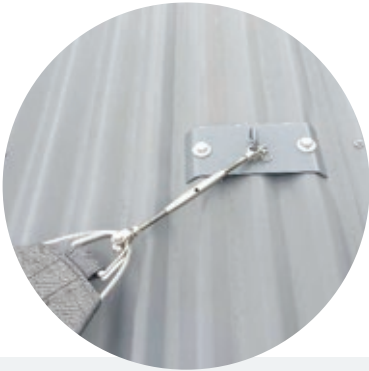

POLES & FIXINGS

Poles are galvanised steel, powder coated using Dulux powder coat systems & concreted into the ground. A stainless steel perimeter cable and fixings add extra strength. We mount to poles, soffit or your roof. We plan, manufacture and install custom solutions for your needs.

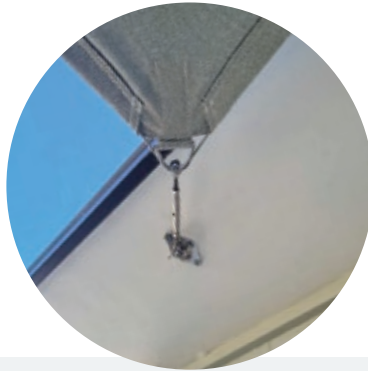

MAINTENANCE & SUPPORT

We offer a take down, clean and reinstall service if you require for the winter months.

KEY FEATURES AND BENEFITS

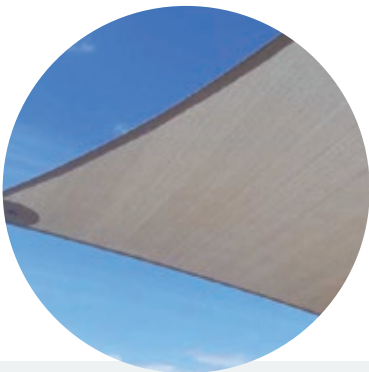

ROOF MOUNT

**UNDER SOFFIT
MOUNT**

**STAINLESS STEEL
FIXINGS**

**STRONG STAINLESS STEEL
PERIMETER CABLE WITH
TWIN STITCHED LONG
LIFE THREAD**

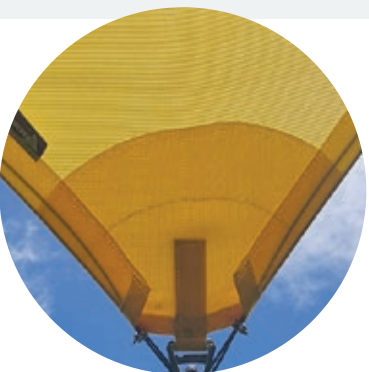

**HIGH STRENGTH,
BREATHABLE FABRIC,
ALLOWING AIR
CIRCULATION FOR COOLING**

**STRONG HDPE WON'T
ROT OR SUPPORT THE
DEVELOPMENT OF
MOULD OR MILDEW**

REINFORCED CORNERS
