ADJUST YOUR LIVING AT THE PUSH OF A BUTTON

RAIN BAR PAPAMOA

Our innovative retractable roof system provides an excellent solution to expand your living space, offering up to 150m² of coverage at the touch of a button. Engineered with advanced European technology and stylish design features, these roofs are designed to withstand New Zealand's challenging climate. They are crafted from high-quality aluminium and stainless steel, paired with a premium PVC membrane skin for durability and longevity.

Operation is simple thanks to industry leading Somfy automation. You can effortlessly retract or extend the membrane skin via remote control. With options for sun & wind, or rain sensors giving you peace of mind.

LED lighting and retractable blinds can be easily integrated allowing for a versatile alfresco experience throughout the seasons. Transform your business potential by converting your open outdoor space into a fully enclosed area at your convenience, boosting capacity and revenue with the simple push of a button.

SUMMERHILL ESTATE GOLF COURSE

CREATE A ROOM

Increase the functionality of your outdoor living space by integrating Ziptrak® Blinds to your Omega retractable awning. Give yourself greater control over airflow, light and temperature without compromising on style or maintenance. Consider installing discreet LED lighting to further enhance your space.

SPECIFICATIONS

Aluminium and stainless steel components are manufactured to the highest standards. Powder coated using Dulux Duralloy Plus to provide added resistance against all weather conditions especially in coastal areas and those exposed to salt spray.

Serge Ferrari Soltis Proof 502 is a highly resistant membrane designed to last. A waterproof fabric offering maximum UV protection, blocking 100% of UV rays (UPF 50+ for all colours) while it durably resists UV damage.

MAINTENANCE

Maintenance is minimal. With regular rinsing and clearing of the gutters, your Omega retractable awning will provide you with years of hassle-free weather protection. Every six months cleaning of the fabric and hardware should take place with warm soapy water using a neutral detergent and a soft bristled brush. This is all that is required to effectively remove dirt, grime & salt deposits.

WARRANTY

Enjoy peace of mind with a 5-year limited warranty on all hardware, fabric, and electronic components of your Omega retractable awning from the date of invoice (excluding natural disasters), subject to adherence to recommended product care guidelines.

We have a great selection of colours and fabric options available! Take a look online at www.makingshade.co.nz
