Fantastic views even in bad weather

When the pergola awning is retracted, there is no glass roof construction obscuring the sky and the view to the outside remains unobstructed.

markilux shadeplus

The additional vertical blind integrated in the front profile simply blocks out low-lying sun and the glances of inquisitive neighbours.

Closed full cassette

The cover disappears completely inside the round cassette, Ø 187 mm, and is ideally protected.

The only thing that is more impressive than the look itself is the fact that the technology works perfectly.

markilux tracfix

One of many markilux refinements: the lateral cover guidance system that leaves no gap between the cover and the guide track. Gives an overall better appearance and improves wind stability.
